No State in the Valley of the Mississippi offers so great an inducement to the settler as the State of Illinois There is no portion of the world where all of the conditions of climate ansayii so admirantly combine to produce those two great staples, Come and Wingar, as the Prairies of Illinois.

RICH BOLLING PRAIRIE LANDS. The deep rich learn of the prairies is cultivated with such won derfus facility that the farmers of the Eastern and Middle State are moving to Illinois in creat sumbers. The area of Illinois a stout equal to that of England, and the soll is so rich that will support twenty millions of people. EASTERS AND SOUTHERN MARKETS.

These lands are continuous to a railroad 700 miles in length which connects with other reads, and navigable lakes and riv ers, thus affording an unbroken communication with the Easters and Southern markets. APPLICATION OF CAPITAL Thus far capita and labor have been applied to developing the soil; the great resources of the State in coal and from are almost unbouched. The invariable rule that the occasion earts flouries best where food and finel are cheapest, will indice at an early day in Illinois and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at cast fire hundred thousand people will be engaged in the State of Illinois in the various manufacturing employments.
